Design: Identify Job Duties and Value**Job Purpose and Organizational Context**

Why the job exists:

The Contract and Procurement Specialist (CPS) is responsible for effectively developing, procuring, managing and administering various types of agreements across a wide breadth of social programs and client populations. This position leads and/or supports the procurement of services and management of contracts to meet the needs of Albertans, within the framework of a ministry and regional strategic procurement plan.

The CPS draws on a strong working knowledge across social programs, including that of program development, system outcomes, service design and delivery. Familiarity with associated legislative, policy and practice frameworks is critical to plan for, procure and monitor services that meet the complex needs of Albertans through their lifespan. A thorough understanding of client needs and community/sector issues, paired with a working knowledge of procurement practices, is key to implementing effective contract and grant management.

The CPS works independently with a high level of autonomy and has strong negotiation, monitoring and consultative skills. This role requires the development and maintenance of a strong network of collaborative relationships with a wide range of stakeholders, including Assisted Living and Social Services

delivery staff and service providers, to assess service needs, identify emerging issues, and ensure that services are in place to meet the needs of multiple client groups.
The successful Candidate will possess a positive attitude, a high level of agility and flexibility for a rapidly changing work landscape.

Responsibilities

Job outcomes (4-6 core results), and for each outcome, 4-6 corresponding activities:

1. Relationship Management and Communication - Build and facilitate an effective network of linkages and collaborative relationships with regional staff and management, service providers, key industry/sector organizations, other Ministries and governments, and community organizations representing a variety of client groups to improve program delivery and outcomes for Albertans with disabilities and those requiring financial, employment and other supports.

- Promote, build and maintain positive relationships and support collaboration and linkages between Assisted Living and Social Services delivery staff, service providers, other levels of government and sector associations to encourage engagement in provincial and regional procurement planning and initiatives.

- Identify the needs of a range of stakeholders and emerging issues in the region.

- Identify emerging issues in the region/sector, assess potential impacts and recommend and implement mitigation strategies to support service providers and address client needs.

- Apply discretion and professional judgment to resolve complex issues, and notify/involve or escalate for decision making if required.

- Building on trusting and transparent relationships with service providers, manage and de-escalate for decision making if required.

- Determine and provide appropriate level of involvement (support collaborations, mediation, coordination and communication) with stakeholders as needed for advancing regional and ministry procurement direction.

- Leverage relationships with service providers and draw on program knowledge to assess and mitigate risks related to quality of services provided to meet Ministry/client outcomes.

2. Monitoring and Reporting - In collaboration with program delivery staff and service providers, manage and monitor contracts and grants to ensure compliance with terms of the agreement and achievement of outcomes.

- Develop a contract/grant monitoring plan.

- Develop and implement processes to identify and effectively manage risk (client, political, program, community, and financial).

- Review and reconcile against contract schedules, service provider invoices for payments, prepare budget estimates/forecasts and monitor expenditures.

- Identify and resolve service agreement or compliance issues and amend or recommend termination of agreements taking legal, political and client considerations into account.

- Monitor contract and grants for outcomes and compliance to terms and conditions.

- Evaluate agreements to ensure they are effective and support overarching goals of services and service level agreements.

- Participate in, and where appropriate, lead reviews pertaining to quality of care, abuse allegations or safety concerns of the clients/individuals and assist in the development of a corrective action plan and monitor as required.

- Maintain a working knowledge of multiple accreditation standards to support input to the accrediting body, consult to internal program queries, enhance program monitoring and outcome delivery, and to support agencies advancement on the spectrum of continuous improvement.

3. Planning - Participate, within the context of the Ministry's strategic procurement plan, business plan, program initiatives, and regional priorities, in the development of the region's procurement plan by identifying trends, providing analysis based on consolidated client and program outcome data, service delivery gaps and emerging best practices, to ensure quality of service that meets the dynamic needs of clients throughout their lifespan.

- Provide input into the development of the provincial/regional procurement plan by identifying and assessing service needs, priorities and trends by collecting and analyzing statistical data and reports from internal and external sources including regional delivery staff, clients, service providers and community

interest groups.

- Contribute to the development and implementation of the provincial/regional procurement plan by identifying existing and emerging service and fiscal priorities and pressures.
- Conduct ongoing environmental scan of social issues, market demographics and trends gathered from statistical reports, external sources, client input and consultations with service providers, sector associations, community associations, etc.
- Apply an integrated perspective, by assessing a continuum of services and identifying gaps and duplication in future service design.
- Develop, implement and participate in internal and external initiatives as required and to foster collaborative relationships, develop skills, build and/or increase capacity within the community/sector.

4. Procurement Management - In alignment with the Ministry and regional strategic procurement plans, ensure procurement of services that are timely, effective, aligned with Ministry policies, procedures, and regulations and compliant with procurement policy and legislation.

- Contribute to the development of recommendations for provincial/regional procurement strategies and services that respond to evolving trends and issues that meet the needs of Albertans.
- Recommend the regional procurement approach and develop associated comprehensive planning and solicitation documents, including desired outcomes, performance measures, costs and communication strategies.
- Lead and/or support the tendering, awarding and selection processes in alignment with procurement legislation processes and Ministry practice.
- Negotiate and finalize agreements with service providers including the terms, conditions, budget, risk identification and measures to minimize risks, in accordance with legislation to ensure quality supports and services.

Problem Solving

Typical problems solved:

- **Stakeholder Collaboration and Relationship Management:** Proven ability to foster relationships with service providers, employers, community stakeholders, and government organizations, ensuring effective collaboration and the alignment of disability services with client needs.
- **Financial Oversight:** Skilled in financial planning, analysis, and oversight, ensuring budgets are managed effectively, financial targets are met, and cost-efficient solutions are implemented while maintaining high service standards.
- **Risk Assessment and Mitigation:** Expertise in assessing potential risks, identifying vulnerabilities, and implementing proactive measures to mitigate negative outcomes and ensure business continuity.

Types of guidance available for problem solving:
