##### Job Purpose and Organizational Context

Why the job exists:

Assist in the maintenance and delivery of equipment for the Water Pumping Program and support agricultural producers in Alberta facing water shortages. This is a cover-off and support position for the peace region.

**Responsibilities**

Job outcomes (4-6 core results), and for each outcome, 4-6 corresponding activities:

1. Trailer repairs to provide safe operating standards and to meet vehicle safety standards
2. Wiring of trailers and repair/maintenance of trailer suspensions, axles, brakes and tires to meet highway safety standards
3. Delivery and allocation of water pumping equipment throughout the province
  - Prioritize need
  - Prepare contracts, collect fees and issue receipts
  - Provide instruction on use of equipment
4. Perform field inspections of pipe
5. Identify and relate concerns (equipment or people) to the Supervisor
6. Maintain and organize equipment in provided storage area
7. Follow provincial vehicle safety standard requirements.

**Problem Solving**

Typical problems solved:

Problems related to delivery of Water Pumping Equipment and equipment maintenance as listed above.

Types of guidance available for problem solving:

Supervisor and Water Pumping Technologist are available for guidance.

Direct or indirect impacts of decisions:

Agricultural producers in Alberta have access to Water Pumping Program equipment and related information.

**Key Relationships**

Major stakeholders and purpose of interactions:

Agricultural producers in Alberta are provided Water Pumping Equipment, instruction and relevant information.

**Required Education, Experience and Technical Competencies**

Education Level	Focus/Major	2nd Major/Minor if applicable	Designation
